

## Office of Air Quality Title V Operating Permits (Major)

Applications	Mar '02	Apr	May	Jun	Jul	Aug	Sept	Oct	Nov	Dec	Jan '03	Feb	Totals
Received	1	2	1	1	4	1	1	1	1	1	0	1	15
Final Decisions	24	9	5	15	6	3	1	2	1	9	3	3	81
Pending (not shown)	219	212	208	194	192	190	190	189	189	181	178	176	

Includes: Title V only. However, the chart excludes those Title V applications received as part of a combined construction permit/operating permit approval, such as Title V/New Source Review, the issuance of which are instead tracked as construction permits (see page 9).

Note: The 1990 Amendments to the Clean Air Act required that the IDEM Office of Air Quality (OAQ) act by December 31, 2000, on all applications for Title V Air Operating Permits received before June 30, 1999. The OAQ has issued the majority of permit decisions required by the deadline, and decisions on the remaining applications are scheduled to be issued in 2001. The chart also includes applications received after June 30, 1999. Applications received after that date must be processed within 18 months. To date, **fifty-three (53)** such reviews have been completed and permits issued, with no late permits. Also note that the apparent spike in March 2002 decisions issued was a result of some roadblock issues being resolved.
